

# CARPIGIANI

## UC-711G/P

Single Flavor  
Counter Model

Carpigiani's UC-711 will dispense a single flavor of your favorite frozen dessert. Designed for low to medium production, its compact size will easily fit on your counter. Choose the simple gravity version to begin making high profits or select the pump model for increased performance and higher profits. Gravity and pump models combine the latest technology for easy, efficient operation.

### Features Include:

- Touchpad controls provide fingertip command of machine functions
- Low mix indicator light with audible signal
- Gravity and pump mix feed systems offer simple operation and smoother, creamier product
- Standby/energy conservation mode reduces cost of operation during idle periods
- Cylinder design optimizes refrigeration efficiency
- Self-monitoring system minimizes costly errors
- Built-in memory stores information to facilitate repairs
